Features & Benefits

- Ready-to-install wood strips and planks that are already sanded, stained, and finished with multiple coats of polyurethane with an aluminum oxide protective finish.
- The finish is factory-applied in an ideal, controlled environment.
- Prefinished hardwood is quick and easy to install, and the residents don't have to leave home during installation.
- Hardwood offers many well-known advantages. It's natural, beautiful, warm and easy to maintain but it lasts dozens of years. It also creates a healthy environment, minimizing the risks of dust allergies.
- Available in many styles with a wide variety of features, hardwood flooring can complement any décor.

Made In
The USA
